Lucas County Residents Asked To Complete Quality Of Life Survey
Findings Will Help Prepare 2018-2020 Lucas County Community Health Improvement Plan

TOLEDO, OH – Healthy Lucas County is asking Lucas County residents to complete a brief quality of life survey, the results of which will be used to identify and develop ways to improve our community's health. The survey to assess Lucas County's overall quality of life includes questions about health care, school quality, economic opportunity, safety and other aspects about the community. The survey also asks Lucas County residents to identify their main quality of life concern in Lucas County.

Information gathered in the survey will be used to help prepare Healthy Lucas County's 2018-2020 Lucas County Community Health Improvement Plan. As part of that plan, Healthy Lucas County is in the midst of assessing Lucas County's health needs, determining available resources, addressing gaps, and establishing community health improvement priorities and action steps. Findings from the 2016/2017 Lucas County Community Health Assessment with data about children, youth and adults are being used as part of the health improvement planning process.

The survey can be found at <https://goo.gl/9chyvR> The survey also can be found in Spanish at <https://goo.gl/XcZsqY> The survey will close Thursday, February 1.

More information about Healthy Lucas County - including infographics with data from the latest health assessment - can be found on our website: www.healthylucascounty.org

About Healthy Lucas County

Healthy Lucas County is a collaboration of community organizations working to improve the health of all Lucas County residents. The collaboration is especially focused on addressing the needs of residents living in low-income areas and lessening health disparities to help everyone live to their fullest potential. Healthy Lucas County is coordinated by the Hospital Council of Northwest Ohio. For more information, please visit healthylucascounty.org.
